

31st October 2019

To Whom it May Concern,

This letter serves as referral to the workmanship of Sabine Kauker, who is a repeat Visiting Practitioner here at Soneva Fushi, Maldives.

For this particular visit, Sabine was at Soneva for the month of October 2019.

Sabine's menu included but not limited to:

Chinese Medicine

Meridian massage

Chakra balancing

Raindrop technique

LNB pain therapy

Chinese reflexology

Reiki

Courses in both Chinese reflexology & Reiki which were offered both to guests & staff over a few days to certify those interested to be able to perform their own treatments on themselves or others.

Sabine also gave classes & workshops to our guests as well as joined our Management & Guest Social events to meet & socialize with guests on a more collective manner to express what she can offer.

Sabine was a huge asset to our team, guests & staff on the island, she made herself available from morning till evening for all that needed to see her & dealt with each person on an individual level.

Revenue wise, Sabine contributed to nearly 40% of the overall revenue for the month so was very popular with our style of guests that we had in-house.

Albeit that Sabine has an extensive schedule to follow, I hope that she will come back to see us soon here in the Maldives & look forward to working with her again.

Best Regards

Tamara Brnelic
